

Gold Class

Gold Class really enjoyed getting into Christmas spirit this month. We widened our knowledge of the World through sensory exploration of stories about Santa, Christmas traditions and preparation for the festive season. We also continued gaining knowledge about gardening, weather changes. Children especially enjoyed hands-on experimenting with water, soil and even had an opportunity to explore ice on one of the frosty afternoon during outdoor learning! We also took a part in the immersive suite sessions, using all the senses and movement to explore winter interactive displays on the walls and floor. Those session are always a great enjoyment for Gold Class.
