

Purple Class Monthly Update: September

In September, Purple Class focused on developing their Independence and expand their communication skills . We had as part as our daily morning routine signs of the week and pupils tried their best to use Makaton language to communicate the sign of the day .

In My Cooking lessons ,we used ALD (Aided language display) for children to ask for equipment that they need to make a toast .

In My Shopping , we opened our class café ,children used ALD to make choice about what they want from the café .

Communication was our main focus in September .
