

## GOLD CLASS

In November we had important and exciting events to celebrate. We really enjoy the sensory story and art work about Bonfire night and Fireworks. We created the lights display in our classroom, made and listened to different loud sounds (pop! bang! boom!), danced and even enjoyed hot dogs and popcorn. Children also learned about our history through another sensory story, remembering all the brave soldiers fighting for our country, experiencing what life was during the war. Another learning opportunity to get to know our world was during the outdoor lessons. We visited new outdoor area and made experiments with the water. Everyone had fun splashing, blowing at the leaves floating on the surface and learning the song about growing plants from the seed.
