

# Charcoal Class Monthly Update:

## September 2023

This month Charcoal have been very busy getting to know each other and new staff. They have all been brilliant and settled well.

In Maths we have been looking at place value as well as using this information to help solve addition and subtraction questions. We have been learning to use different resources and methods to help us.

Stars of the week  
for this month

Ashton  
Peyton  
Elliott

Congratulations!

In English we have been focusing on fictional texts. We have been reading a version of Rapunzel and working on writing our own version to share with others!

In Science we have been learning about electricity. We have covered what appliances are and whether they are electrical or not. We then looked at how electrical appliances are powered (battery or mains), as well as safety rules around electricity.

In Art we have been looking at a variety of portraits. This week we focused on the famous artist Pablo Picasso, his use of 'warm' and 'cold' tones and applying this to create some abstract portraits. Well done!
