

## Yellow Class

Welcome back! Our topic for this half term is local environment and school.

In discovery, we have been learning about the different places in the school, we have also learnt about the seven continents, and now we are learning about where Bordon is on a map of Hampshire.

In creativity, we have learnt to make collages using different materials: tissue paper, cellophane, fabric, buttons and cotton.

In music we have learnt school songs and we sing them and also use makaton.

In RE, we learnt about Judaism and celebrated the "Rosh Hasahana" festivity by enjoying some tasty apples dipped in honey.

In Food Technology, we have learnt to make our own breakfast by making toast or a bowl with cereal. Pupils did a fantastic job at doing this independently and really demonstrated those focus skills of pouring and spreading.

We have had the opportunity to go horse riding which pupils have enjoyed. They have practised strengthening their core by sitting correctly on a horse and have taken part in physical co-ordination focussed activities.
