

Lemon Class

In January, we have been learning about 'Transport', through the Barefoot Books song 'We All Go Travelling By'. We have been learning transport-themed language through stories, songs and nursery rhymes.

In Maths, we have used small world vehicles to make comparisons between and use the language of 'big and small'. We have been listening to number rhymes and songs to practice our counting skills, using 'finger numbers' to show how many items are left in total.

In our Independence Skills learning this month, we have practiced using scissors to cut and snip, and have been working very hard at putting on and taking off our coats and shoes. We have had lots of practice at this in the cold weather!
