

Bronze Class Monthly Update: January 2024

Ms. Kitching has become a qualified Forest School Leader. Which means every Wednesday morning Bronze and Aqua students have started to take part in Forest School Activities. Beginning with learning how to tie knots and then using this knowledge to put up shelters in Bordon Enclosure.

In Mathematics the students have started a new examination topic as part of their AQA award, on 'The four operations (+, -, x and divide) with Ms. Strugnell. Part of this has been playing the 'Countdown' game. Where students have to use the four operations to make a computer-generated number.
