

Yellow Class

This term the topic has been “Up in the air”.

In English, students were able to construct sentences and identify adjectives using visual aids.

In Food Technology, the students have learned to prepare their sandwiches independently. The students were able to choose and use the equipment and ingredients independently.

In Science, the students have been experimenting with magnets.

In P.E., the students of the Yellow class have had the great opportunity to learn how to play cricket with a cricket instructor. The students really enjoyed it!
