

Charcoal Class Monthly Update: May 2024

We have some class pets!

This month we had a special delivery arrive at school. It was a small, brown box that came in the post, with 5 caterpillars inside a tub. The pupils in Charcoal class gave each of them a name. We have been watching them grow bigger and are excited to watch them turn into a cocoon. When the butterflies emerge, we are going to release them outside.

We have been learning more about South America and the Rainforest, finding out it is called the Lungs of the World. We are now exploring the 4 layers of the rainforest and we are learning all about them.

In English we enjoying learned more about poems is and how they can rhyme.

This month in art we are exploring sculpture and have made some huge box sculptures and some smaller, clay, abstract models.

During Maths we have been plotting graphs and learning about 'x' and 'y' axes. We have enjoyed playing the game Battleships, to help us learn how to do this.

By Charcoal Class.

Our Stars
of the Week, this
month are;
Ashley, A-Jay and
Peyton
Congratulations!
