

FE

October has been a busy month for the group as we have really got into the swing of the term and fully embraced all the activities. On Mondays everyone has made huge improvements at the bowling alley, with half the group progressing so well that they can now bowl independently without the need for the ramp! I am so impressed with them all... we have even had scores in the 90's! Well done 😊 On Tuesdays we missed a couple of our sessions at Alton College early in the month so took full advantage when we did get there, building individual Lego scenes before getting up close with them to produce some excellent macro photography. We saw some amazing photography skills develop, and some real interest in creating and framing our images. Wednesdays have also seen great success and improvements... we can celebrate certain members of the group who have been reluctant to try foods at school (other than their provided packed lunch) who have taken steps forward by trying what they have been cooking for the first time... one of them even had seconds! The students should be proud of the meals they make, and their independence skills are slowly developing 😊 Thursday Food Bank shifts have also gone from strength to strength. The work experience there started a little unsure with our new students, but by the end of the term they were fully on top of all the different jobs and expectations for working there. The students have shown that they are able to undertake these work tasks to a high standard and look forward to returning later in the school year. Friday DofE sections are coming along well, everyone is signed up to their eDofE and making great progress with their Skills, Physical and Volunteering every week 😊

Employee of the Month

Alfie

Here are a few of the signs we have been using this month...

Tidy

Vegetables

Camera

Money

Rub fingertips and thumb together
